

Welcome to the CTF Competition

Fifth Domain

COMPETITION RULES

1. Do not attack or compromise the competition infrastructure.
2. Do not share challenge solutions with other participants.
3. Do not engage in any activity which may impact or prevent others from solving challenges in the competition.

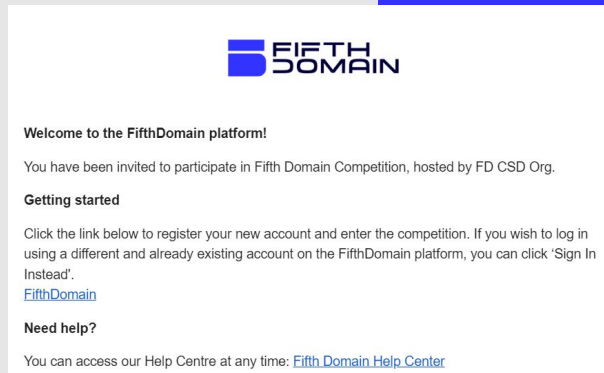

INTRODUCTION TO THE PLATFORM

Registration & Login

- Participants will receive a registration email to the platform
- Follow the registration instructions to create an account

The screenshot shows the 'Create Account' form with fields for Full Name, Email Address, Password, and Confirm Password. It also has a checkbox for receiving information and 'SIGN IN INSTEAD' and 'NEXT' buttons.

CREATE ACCOUNT

Full Name

Email Address

Password

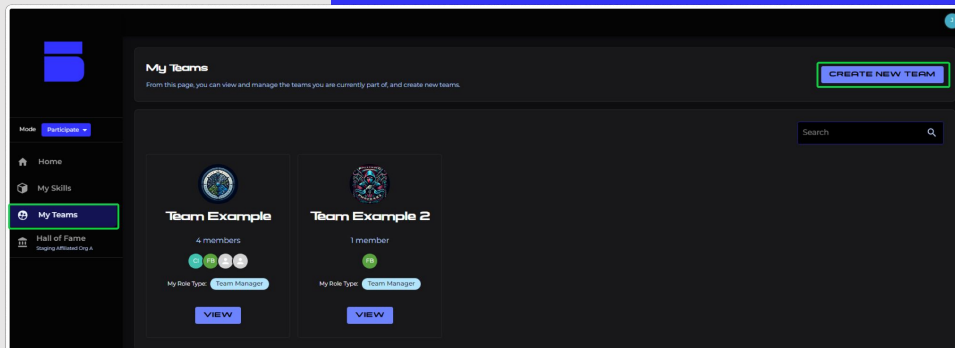

Confirm Password

☐ I'd like to receive information about FifthDomain's products.

[SIGN IN INSTEAD](#) [NEXT](#)

Creating Teams on the Platform

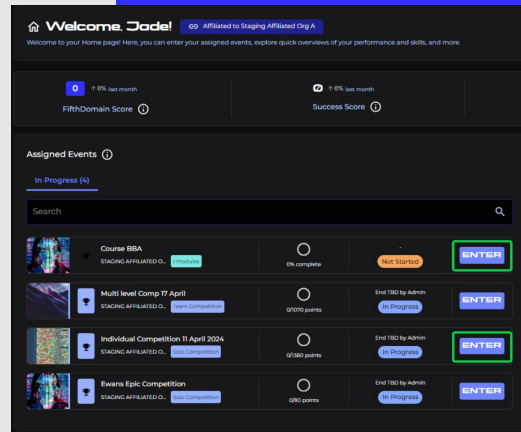

- To create a team on the platform, select “My Teams” then “Create New Team”
- Enter your team name and select “Create & Next”
- Now proceed to invite your team members!

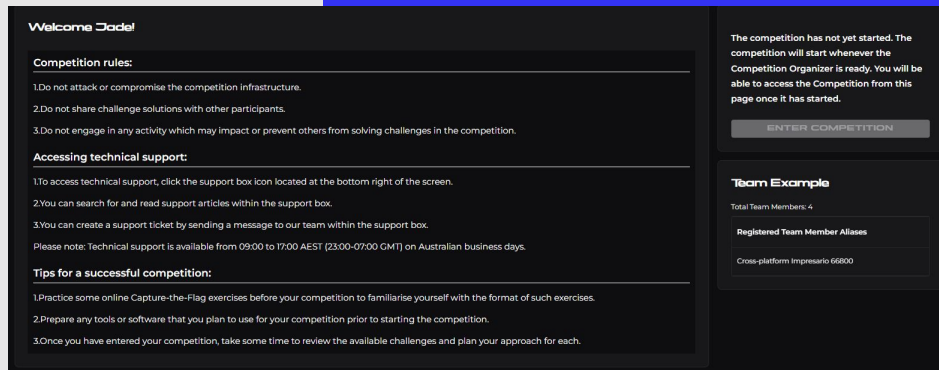

Home & Assigned Events

- In the home page, participants will be able to see all of their assigned events
- Select “Enter” to view the competition instructions

Competition Instructions

- Here participants will be able to view competition rules, competition duration, and team members
- Once the competition has started, participants will be able to enter via the “Enter Competition” button

The Competition

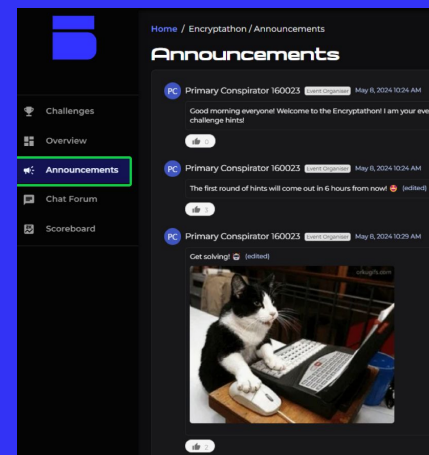

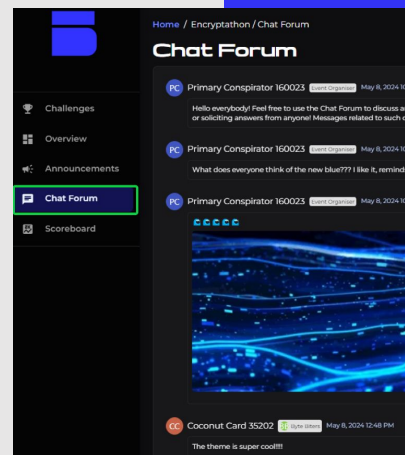

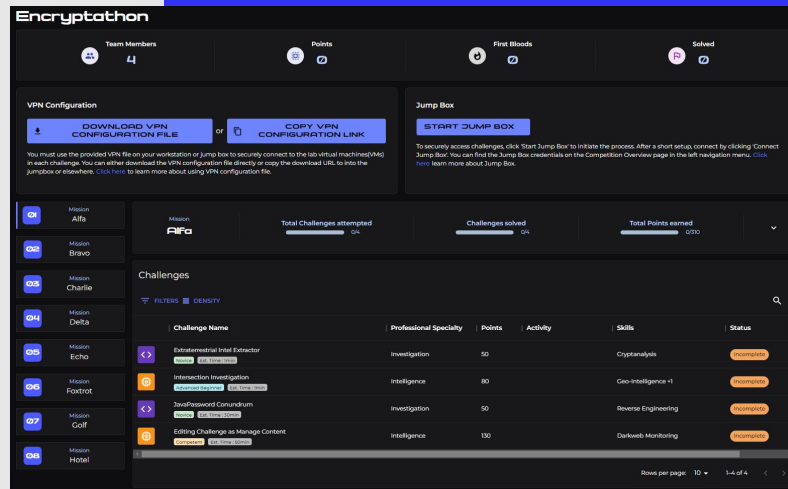

- Once entered, participants will be able to view all available challenges to start solving
- The very left column allows you to navigate through the different levels of the competition

To attempt a challenge

Select the challenge → Click “Start Solving” → Read the description carefully → Enter into the Lab (If required) → Enter the flag → Click “Submit”

Team Coordination

- Chat Forum** is available for organisers and participants can connect with each other
- Announcements** allows organisers to deliver competition-specific information to participants

Virtual Machines (VMs) & Labs

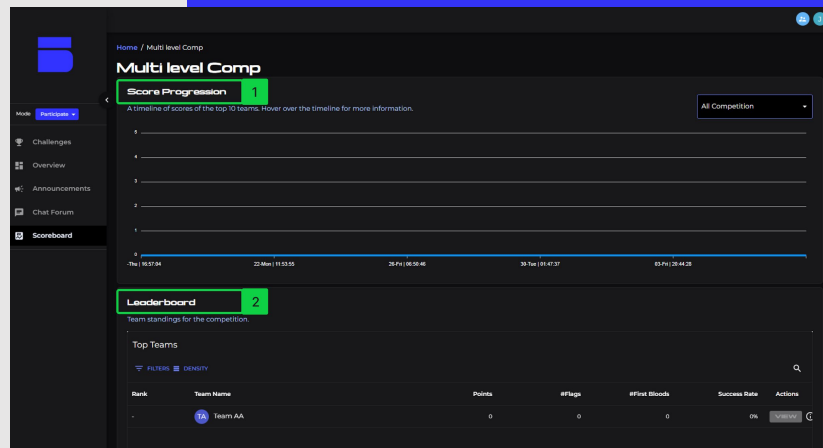

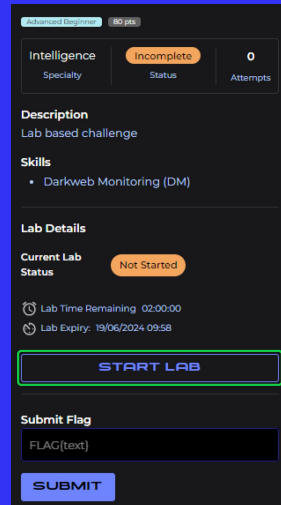

- There are 4 labs based questions to solve in this competition
- All participants will have access to a Jumpbox VM to attempt lab challenges

Before attempting a labs based question, please ensure:

- 1) You are connected to the VPN
- 2) You start the challenge lab

The Scoreboard

- Shows how you are tracking against the rest of the competition
- Available to all participants during the competition and is accessible on the left sidebar menu

TECHNICAL SUPPORT

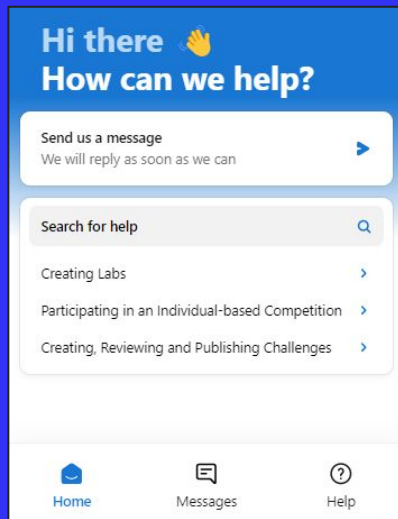

Technical Support

1. To access technical support, click the support box icon located at the bottom right of the screen.
2. You can search for and read support articles within the support box.
3. You can create a support ticket by sending a message to our team within the support box.

Online Support

Additional support is accessible on any page within the platform. Simply click on the Blue icon on the bottom right of your screen, as shown in the image below.

THANK
YOU.

CYNAPSE

CYNAPSE PROGRAM

CYNAPSE

The Cyber National Assessment Program for Skills and Employment (CYNAPSE) aims to increase the cyber workforce and diversity, preparing candidates for the cyber workforce

Workforce

The CYNAPSE Program aims to reduce the cyber workforce shortage and further diversify the cyber industry by providing a platform for anyone to find suitable employment in cyber

Standardisation

CYNAPSE implements standardised testing into cyber roles, trains candidates for working in Security Operations Centres, and gives employers and recruiters insights to improve workforce participation.

Access

Performance data of participants will be shared and accessed by a network of **recruiters, government agencies, and industry leaders** to evaluate and recruit
